Declaration “Environmental Labelling”

Dear ladies and gentlemen,

At Lenzing Plastics we pay attention to the sustainability of our actions and the environment! We strive for long-term values, innovation, quality and further development for the advantage of our business partners and employees and are mindful in our production processes and technologies of a responsible handling of resources.

To make recycling easier for our customers we provide you with information on packaging materials used in our products (coding according EU regulation 97/129/EG):

Material	Abbreviations	Numbering
